1. a. In the original use: The seventh day of the week (Saturday) considered as the day of religious rest enjoined on the Israelites by the fourth (or in medieval reckoning the third) commandment of the Decalogue. Phrases, *to keep, break the Sabbath*.

The word was never in England, as in some continental countries, a vernacular synonym for Saturday, though English writers of med.Latin used *dies Sabbati* as frequently as *dies Saturni*.

b. Since the Reformation, often applied to 'the Lord's day', i.e. the first day of the week (Sunday) observed by Christians in commemoration of the resurrection of Christ. This use was originally connected with the opinion that the sabbatic law of the Decalogue remains in force under the Christian dispensation, the date of the 'Sabbath' having by Divine appointment been changed from Saturday to Sunday; but it occasionally appears in writers who did not hold this view. In Scotland it is still very common. (Phrases as in I. a.)

The notion that the Lord's day is a 'Christian Sabbath', or, more commonly (as in quot. 1340 under a) a substitute for the Sabbath, occurs in theological writings from the 11th c. onwards, but was not popularly current before the Reformation. In English, *Sabbath* as a synonym for 'Sunday' did not become common till the 17th century.

According to Nöldeke, the word represents the pr. pple. of the Aramaic *ܣܒܝܐ* *sābiā* to baptize (the *ܣ* being changed into *ܐ* as is usual in the Mandæan and cognate dialects). In the actual form in which the word occurs in Arabic, it has the appearance of being derived from the same root as the Hebrew *סָבַח* *sābāh* host (see SABATH); hence, as certain sects claiming the name of Sabians were alleged to be worshippers of the stars, the name was (already by Maimonides in the 12th c.) interpreted as referring to 'the host of heaven'.

A. *sb.* 1. An adherent of a religious sect mentioned in three passages of the Koran (ii. 40, v. 73, xxii. 17), and by later Arabian writers.

In the Koran the Sabians are classed with Moslems, Jews, and Christians, as believers in the true God. On account of the toleration extended by Moslems to them, the name of Sabians was, some centuries after Mohammed, assumed not only by the Gnostic half-Christian Mandæans (whose religion is perhaps akin to that of the true Sabians), but also by certain actual polytheists. The statement of some Arabic writers is that the Sabians were professedly Christian, but secretly worshippers of the stars. (Cf. SABAISM.)

1661 BOYLE *Style of Script.* (1675) 35 For want of knowing the Religion of the ancient Zabians... Of those Zabists... I find a deep and general silence in Classic Authors. 1797 *Encycl. Brit.* (ed. 3) X. 462/1 The fourth [sc. apartment of

2. In erroneous use: A worshipper of 'the host of heaven'; a star-worshipper.

1716 PROEUX *O. & N. Test. Connected* i. iii. (1718) I. 140 The remainder of this sect still subsists in the east under the same name of Sabians... That which hath given them the greatest credit among the people of the east, is that the best of their astronomers have been of this sect... GREENWOOD in *Athenæum* 23 July 125/3 Bishop Cumberland and Bishop Warburton... agree that Cain... and his descendants were Sabæans. Abraham and Moses were Sabæans till Jehovah revealed himself to them.

B. *adj.* Pertaining to the Sabians (in the various applications of the name: see A).

The development by which the heraldic term has become a general (poetical or rhetorical) synonym for 'black' is peculiar to English.]

Sack (sack), sb. 3. Obs. exc. Hist. Forms: a. 6 north. wynn senke, Sr. wyne secke, vyne sekk; b. 6 seck(e); 7. 6 sunke, 6-7 secke, 6- sack. [Early 16th c. wynn sekk, ad. F. *vin sec*, 'dry wine'. Cf. G. *selt*, earlier (17th c.) *sekk*, Du. *sekk*.

Vin sec is given by Sherwood 1632 (but not by Cotgrave 1611-32) as the Fr. equivalent of 'sacke'. According to Littré, *vin sec* meant only 'dry wine' in the current Eng. sense, i. e. wine 'free from sweetness and fruity flavour'; the assumption made in sv. *Selt* and in earlier 'th c. onwards, that it at some time meant 'wine from dried or partially dried grapes'. Some difficulty therefore arises from the fact that *sack* in English, as well as *sekk* in German, was often described as a sweet wine (so already in our earliest quot.), though Shakespeare's mention of 'sack and sugar' shows that it was not always such even in the 16th c. It is possible that before the recorded history of the name begins it had already been extended from the 'dry' wines of a certain class to the whole class, and had afterwards come to be applied esp. to those wines of the class which were originally included. But evidence is wanting. The Sp. *vin seco*, lb. *vin seco*, usually cited by etymologists, appear not to be recognized by the lexicographers of the respective langs.

The form *sack* is not a normal development from the original *sekk*. It may perhaps be explained by the fact that in the 16th c. *sekk* was a provincial form of *Sack sb. 1*; persons who were accustomed to regard 'sekk' as a mispronunciation of *sack* may have applied the supposed correction to the name of the wine. It is not, in the present state of the evidence, probable that there was ever any confusion with the OF. *vin de sac* ('Sacatum, vin de buffet, vin de sac'), in a gloss quoted by Godefroy, OHG. *sacvin* (written *sacvin*), MDu. *sacvijn*, which according to early explana-

tions meant a beverage made by steeping the lees of wine in water, and then straining through a bag.]

Sack (sack), sb. 4. Also 7, 9 sac, 8- sacque. [Cf. G. *französischer sack* (Grimm), Da. *sack*, both applied in the 18th c. to a French fashion of gown then worn by ladies. This, with Peppys' spelling (quot. 1668-9), would seem to indicate adoption from F. *sac*, but the Fr. lexicographers do not recognize the word in this sense.

It is possible that both the senses below, or sense 2 only, may have originated as transferred uses of Sack sb. 1. To place them under that word would however be inconvenient, on account of the marked divergence of application, and the fact that the pseudo-Fr. spelling *sacque* is still frequent in both senses.

Sense 2 is given by M. Heyne (in Grimm) as a modern tailors' use of G. *sack* (also *sackpalette* 'sack' overcoat); but this may possibly be from English.

In the following quot. *sack* may denote some article of clothing, but its sense is obscure, and it is not certain that it is English:—

F. *sagubute*, earlier *saguboute*, -bottle, etc.; not found as the name of a musical instrument earlier than the latter half of the 15th c., but presumably identical with ONF. *saguboute*, explained in the 14th c. as a lance furnished with 'an iron hook for pulling men off their horses' ('un grau de fer pour les garchons saginier jus de leurs quevaux'). In the modern Norman dialect the word means a squirt. The first element is clearly ONF. *saguer* (= Sp., Pg. *sacar*) to pull, draw (which accounts for all the senses of the compound); the etymology of the second element is obscure; some scholars connect it with *boutler* to push.

The Sp. *sacabuche* (cf. the 16th c. Eng. form *shagbush*), sackbut, also tube used as a pump, and the Pg. *sacabucha*, -buxa, with the same meanings, appear to be corrupt adaptations of the Fr. word. The Pg. word is identical in form with a word meaning a hook for drawing the wad from a gun, regularly f. *sacar* to draw + *bucha*, *buxa*, wad. Pos-

1. An obsolete musical instrument; a bass trumpet with a slide like that of a trombone for altering the pitch.

The word is to most readers known only from its occurrence in Dan. iii, where it is a mistranslation of Aramaic *sabb'ka*, which the LXX and Vulgate render (doubtless correctly) by Gr. *σαμβύκη*, L. *sambuca*, the name of a stringed instrument (see SAMBUCA). Coverdale 1535 (for what reason is not clear) renders the word by *shawmes*, thus taking it to denote a wind instrument; the Geneva translators, accepting this view, seem to have chosen the rendering 'sackbut' on account of its resemblance in sound to the Aramaic word. In this they have been followed by the 'Authorized' (1611) and 'Revised' (1885) Versions.

[*a.* *f.* sacrament (12th c. in Hatzl. In accordance with the functions of the suffix *-mentum* (see *-ment*), the etymological sense of L. *sacramentum* would be either (1) a result of consecration, or (2) a means of consecrating, dedicating, or securing by a religious sanction. The latter of these notions is that which seems to be present in the classical uses of the word:

μυστήριον MYSTERY¹. This use is evidently not based on either of the specific applications above mentioned, but is the result of a recourse to the etymological meaning. In early Christian language *sacramentum* and the synonymous *μυστήριον* were applied indiscriminately to any ritual observance of the Church, or to any spiritually symbolic act or object; but they were also often applied in an eminent sense to the two most important observances, baptism and the Lord's Supper or Eucharist. For the later history of the use, see below in sense 1.]

1. *Ecll.* Used as the common name for certain solemn ceremonies or religious acts belonging to the institutions of the Christian church.

The English use before the Reformation adopts the enumeration of seven sacraments (believed to have been first formulated by Peter Lombard in the 12th c.; the same list is recognized in the Eastern Church): viz., Baptism, Confirmation, the Eucharist, Penance, Extreme Unction, Order, Matrimony. As late as the 14th c., however, there were still traces in English... of the... of the word formerly current; while... as eminently entitled... more general sense to certain other rites (see quot. c. 1315). From the 16th c., Protestants generally have recognized two sacraments only, viz. baptism and the Lord's Supper.

The formal definition of *sacrament* depends on the answer to the question what is the distinctive feature common to the seven or to the two 'sacraments', on account of which they form a separate class from all other observances. Those who accept the number seven, and many of those who admit only two sacraments, say that the sacraments differ from other rites in being channels by which supernatural grace is imparted. The origin of Arab. *zæsfarān* is unknown; it is not connected with *zæsfā* fem. of *asfar* yellow. The Turkish synonym *safran* (Zenker; given in Redb.-Wells only as an incorrect pronunciation) may however be derived from this adj., and may be the source of some of the European forms.]

Sag (sæg), *v.* Inflected sagged, sagging. Forms: 5-7 sagge, (6)sagge, 9 saggs, 6-sag; 8-9 dial. sag(g) (see E.D.D.). [First recorded in the 15th c.; the meaning (as well as the 16th c. form *sagge*) appears to point to connexion of some kind with mod. Du. *sakken*, M.L.G. *sacken*, Sw. *sacka*, Norw. dial. *sakka* to subside, settle down (also *sak* subsidence), Da. *sakke* to lag behind (in the Du. and Sw. words have also the nautical sense below). With sense 3 cf. Norw. dial. *sagga* 'to walk heavily and slowly, as from weariness' (Ross), for which other dialects have *sigga*, *sugga*.

The Du., LG., and Sw. forms appear to admit of no etymological explanation as native words; on the other hand the Norw. dial. *sakka* may be related to *sakke* (ON. *sakka* to sink. It seems possible that the word is originally WScandinavian, and has passed (as a nautical term) into Sw., Du., LG., and (perh. through LG.) into English.

[*OE. sacu* str. fem. = OFris. *sake*, *sake* affair, thing, sake, OS. *saka* lawsuit, enmity, guilt, thing (MLG.), MDu. *sake* lawsuit, affair, cause, reason, guilt, Dn. *saak* lawsuit, cause, sake, thing), OHG. *sakha* cause, sake, thing (MHG. *sack(e)*, mod.G. *sacke* thing, affair), ON. *sak* crime, accusation, action at law, cause, sake (Sw. *sak*, Da. *sag* in the same senses; also, influenced by Ger., thing) :-OTent. **sakā*, related to the str. vb. **sak-*, represented by OE. *sacan* to quarrel, fight, claim at law, accuse, OS. *sakan* to accuse, OHG. *sakhan* to strive, quarrel, rebuke. From the same root are OE. *sac(e)* (:-**sakjē*), Goth. *sakjō* (:-**sakjōn*), strife. An ablativ-variant of OTent. **sak-* is probably the **sak-* represented by SEEK *v.*, q.v. for the cognates outside Teutonic.

The only use surviving in mod.Eng. (for the sake of) has not been found in OE., and was prob. adopted from ON. It existed, however, in OHG. and OFris., and there is a possibility that it may have been in OE., though not evidenced in the literature. It seems to have arisen from the use of the sb. to denote a litigant's cause or case (see 1 b). Cf. *L. causa* (s).

† **L.** As an independent substantive. *Obs.*

1. Contention, strife, dispute; in OE. also, a contention at law; a suit, cause, action.

II. *Phr.* *For the sake of* (also *for sake of*); *for* (one's, a thing's) sake.

In the latter of these forms, the word which precedes *sake* is a possessive (noun or pronoun); but down to the middle of the 19th c. the 's of the possessive of common or abstract nouns was very commonly omitted (doubtless owing to the difficulty of pronouncing the two sibilants in succession), and from the 17th to the early 19th c. the two sbs. were often used together as if forming an attributive 's is now obsolete, but it is a *conscience sake*, for *goodness sake*, for *righteousness sake*, etc., without the apostrophe which is ordinarily used to mark the possessive of words ending in a sibilant.

The paragraphs marked *B* contain illustrations of the omission of the 's; some of the early examples there placed must be explained by the fact that the sbs. occurring in them (e.g. *good*) had originally no 's in the genitive.

5. Out of consideration for; on account of one's interest in, or regard for (a person); on (a person's) account.

The remaining uses were no doubt suggested by mod. Latin phrases like *salvo jure*, *salvo honore*, etc.; see SALVO *sb.* 1]

By English common law, a fugitive charged with any offence but sacrilege and treason might escape punishment by taking refuge in a sanctuary, and within forty days confessing his crime and taking an oath which subjected him to perpetual banishment. By the act 21 Jac. I. c. 28 § 7

On this assumption the Teut. words may be cognate with *L. sapere* to taste, *sapor* taste, savour; also with *sapa* must be boiled thick, whence (with change of meaning, prob. due to association with the WGer. word) Pr. The hypothesis that the WGer. word was adopted from *L. sapa* is improbable in view of its relation to the Scandinavian synonym; besides, the assumed development of meaning in popular Latin (of which the Rom. words afford the only evidence) appears unlikely unless as a result of extraneous influence.

|| **Saros** (sē'ō-rōs). [Gr. σάρος or σάρος (Berossos), a. Assyro-Babylonian *sār(u)*.]

1. *Antiq.* The Babylonian name for the number 3600, and hence for a period of 3600 years.

The notion expressed in quot. 1662, that the saros consisted of 3600 days, is due to the desire to rationalize the incredible statements of Berossos with regard to the lengths of the reigns of the antediluvian kings of Babylon. Other expedients for the same purpose were adopted by early writers on chronology.

2. *Astr.* Adopted by modern astronomers as the name of the cycle of 18 years and 10½ days, in which solar and lunar eclipses repeat themselves.

This use is founded on the statement of Suidas (app. due to some mistake) that the length of the saros was 18½ years. 1823 WOODHOUSE *Astron.* xxxv. 333 The period of 223 lunations, called by the Chaldean Astronomers, the Saros. 1868 LOCKYER *Elem. F. satire* (= *Sp. sátira*, Pg., It. *satira*, G. *Satire*), or directly ad. *L. satira*, later form of *satura*, in early use a discursive composition in verse treating of a variety of subjects, in classical use a poem in which prevalent follies or vices are assailed with ridicule or with serious denunciation. The word is a specific application of *satura* medley; this general sense appears in the phrase *per saturam* in the lump, indiscriminately; according to the grammarians this is elliptical for *lanx satura* (lit. 'full dish': *lanx* dish, *satura*, fem. of *satur* full, related to *satis* enough), which is alleged to have been used for a dish containing various kinds of fruit, and for food composed of many different ingredients.

Formerly often confused or associated with SATYR (see esp. sense 4), from the common notion (found already in *satura*) that the chorus of satyrs

k 'satyric' drama. The words *satire* and *satyr* were probably at one time pronounced alike, as the derivatives *satiric* and *satyric* are still; and the common use of *y* and *i* as interchangeable symbols in the 16th and 17th c. still further contributed to the confusion.]

I. 1. A poem, or in modern use sometimes a prose composition, in which prevailing vices or follies are held up to ridicule. Sometimes, less correctly, applied to a composition in verse or prose intended to ridicule a particular person or class of persons, a lampoon.

SAFE a. 5 had often

The *fo* forms may partly represent the OF *saue* in col-
 location with a fem. sb., and partly the ME *saue* form of the
 plural adj. But the later identification of the form *saue* is
 probably due to the identification of the word with the im-
 perative of the vb. cf. *except*, which appears to have been
 similarly apprehended as an imperative.

The use of a nominative after *save* (see 1 h) may perhaps
 be a trace of the originally adjectival character of the word:
 it is, however, to be noted that the same thing occurs with all
 the quasi-prepositional words of the same meaning, includ-
 ing even *saving* and *excepting*, which are in origin pr. ppls.
 of transitive verbs.]

from L. *saturia*, the form-history is uncertain.

On the one hand the ME. *saverie* might descend (with

substitution of v for ð) from OE. *sæderie*, a. early OF.

**sæderie* (later *særie*, whence the dim. *særielle* surviving in mod. Fr.) = Pr. *sadria* (whence 16th c. Fr. dial. *sadriege*, Sp. *ajedra*, and perh. by metathesis the synonym, *sagerida*) = L. *saturianum*. On the other hand, Hereschach (*De Re Rustica*, 1570) cites an It. *savoreggia* and F. *savoreite*, and the latter appears in Cotgr. 1611 as *savoreite*. The existence of these forms suggests that the ME. *saverie* may be an adoption of an unrecorded OF. form which had the v either as a phonetic development in hiatus (cf. F. *pourvoir* for early OF. *poir*) or through the influence of *saver* SAVOUR.

Independent adoption of the Latin word appears in OE. *saturge*, ME. *saturie*, MHG. *saterie* (G. *saturei*), It. *saturgia*, corruptly *saturiegia*, Pg. *saturiegia*.

OE. *seax* (:-**saliso*-) knife, Sax, f. pre-Teut. root **sok-*: **sek-* to cut; cf. *L. scire* to cut.]

1. A cutting tool consisting of a plate (or, in some forms, a band or a tube) of metal (usually steel), one edge of which is formed into a continuous series of teeth. (Some saws for cutting stone are without teeth.) In the original form of the tool, represented by the HAND-SAW, and in some varieties of more modern invention, e.g. the pit-saw (see *PIR sb.* 14), the saw is moved backwards and forwards, each movement in one direction deepening the groove or 'kerf' made in the wood or other material to be cut. In other varieties, as the circular saw and the band-saw, a continuous movement in one direction is substituted for the reciprocating movement.

Ordinarily *saw* means the complete instrument including the handle, frame, or the like, necessary to fit it for use; but sometimes the word is applied to the 'saw-plate' or 'saw-blade' alone.

Also with defining words, indicating special varieties of form, structure, mode of operation, or purpose, as in *band saw*, *circular saw*, *compass saw*, *drag saw*, *endless saw*, *frame saw*, *frat saw*, *gate saw*, *hand saw*, *ice saw*, *joint saw*, *keyhole saw*, *lock saw*, *metal saw*, *mill saw*, *panel saw*, *pit saw*, *rabot saw*, *rip saw*, *sash saw*, *tenon saw*, *web saw*. These terms, so far as they have been thought to require notice in this Dictionary, are treated either under their first element or as main words. A considerable number of kinds of saws used for surgical purposes are distinguished by the names of their inventors, as *Butcher's*, *Ferguson's*, *Gowan's*, *Hey's*, *Liston's* saw.

Say (*sei*), *v.* 1 Forms: see below. [OE. *seegan*, pa. t. *sagde*, corresp. to OFris. *sega*, *sedza* (mod. Fris. *siezze*), OS. *seggian*, pa. t. *sagla* (MLG. *seggen*, MDu. *seggen*, *saegen*, Du. *zeggen*), OHG. *sagēn*, pa. t. *sagitā*, *segita* (MHG., mod.G. *sagen*), ON. *segja*, pa. t. *sagda*; repr. (-en-seq-e = OLatin *insequē*, *insequē*), εἰσέρενε aorist inf., to tell, say, L. *inquam* I say (-in-squi-am).]

The normal mod. Eng. phonetic representative of the OE. inf. *seegan* (or the 1st sing. pres. *sege*) would have been **sedge*. As in the case of *liv* v. *lie* 2d, the mod. form comes from OE. forms which had *g* (palatal) instead of *sc*, as imp. *sege*, *sage*, 2d sing. pres. ind. *sege*, *sage*, 3rd sing. pres. ind. *sege*, *sage*. The *g* represents WGer. *g*, and the *sc* WGer. *sc*; the OTeut. stem **sag-* having become by phonetic law in WGer. **sed-* before an inflexional suffix beginning with a vowel, and **sag-* in any other position. In Middle English, alongside the tendency, which ultimately prevailed, to extend the stem *sege*, *sei*, *sai* (-OE. *sege*) to all parts of the verb, there existed an opposite tendency to extend the stem *segg*: beyond its etymological limit. Hence... not the pa. t. had two tions of which does not

has not yet been found, as J. de Garlandia, though resident in France, was an Englishman. The form represents an earlier **scaburc*, -*berge*, which must be an adoption of a Teut. compound, the last element of which contains the root **berg* to protect (cf. HAUBERK). No such Teut. compound has, however, been found. As to the origin of the first element two suggestions have been made: (1) that it is OHG. *scala* shik, husk, which does not yield a very satisfactory scabbard; (2) that **scaburc* is altered by dissimilation from **scaburc*, from OHG. *scär*, *scära*, ordinarily meaning 'scissors', but *occas.* used as a designation for a sword. The Icel. *skilfr* scabbard, *skilfr* short sword (a. Gr. *σκάδαν*), *skilfr* 'one part of a cloven thing' (Vigf.), pl. *skilfr*, bean-pods, have some resemblance in form and sense, but the possibility of etymological connexion is very doubtful.]

The specific use referring to liquid agency, which is the prominent one in Fr. (and hence in Eng.), and is more or less represented in the other Rom. langs., is prob. to be accounted for by the fact that *excaldere* could as well be referred to the *cal(i)dis* sh., hot water, as to the adj. In Eng. this is the earliest sense of the word, which is first recorded in the Anglo-Norw. (a. 1225) both in its simple form (see quot. s. v. SCALDING *pp.* a.) and in the compound *for-schelde* (see For- *pref.* 5).

The word entered at an early date into the Scandinavian languages: early M.Da. *skolde*, M.Sw. *skaldra*, *skolda*, *skella*, Sw. *skälla* to scald.]

 husk (MHG., mod.G. *schale*); the quantity of the
 vowel is doubtful in OS. *skala* cup, and in the
 ODN. antecedent of MDn. *schale* (Du. *schaal*),
 though it is probable that in Du. as in Ger. two
 original forms, *skāla* cup, scales, and *skāla* husk,
 shell, have become phonetically coincident. For the
 OE. *scēalu* the inflexion appears to attest the
 short vowel in all the senses. The WGer. **skāla*
 (= OTeut. **skēla*, *skālā*) passed into OF. as *eschale*,
escale cup (med.L. *scala* 'paterna'), also husk
 (mod.F. *écaille*). For the Teut. root **skel* = *skāl*:
skēl = to separate, divide, cf. SHALE, SHELL, SKILL.
 See also SKELE.

Between the first quarter of the 13th c. and the 16th c. the
 a forms (containing the vowel a) represent the northern
 pronunciation, the β forms being midland and southern. In
 the 16th c., however, the northern scale seems to have found
 its way into the London dialect, being used by Palsgrave
 and later by Spenser and Shaks. In the 17th c. scale is the
 prevailing literary form, though *scale* (with other equivalent
 spellings) occasionally appears down to the middle of the
 century.]

who brought his company of Italian players to London in 1673, rendered the word very popular in England during the last quarter of the 17th c.

2. Originally used to express a restrictive qualification, = 'barely', 'only just'; hence also, = 'barely, or not quite', 'only just, if at all'. In mod. use the original sense survives only in definite statements of fact. In sentences relating to belief, expectation, or estimation, the word now (as occas. in ME.) serves as a restricted negative (= 'not quite'). Often, however, the qualification really relates, not to the contents of the sentence in which the *adv.* occurs, but to the degree of the speaker's belief; thus 'You will scarcely maintain this proposition' is equivalent to 'I cannot quite believe that you will maintain', etc. Cf. SCARCE *adv.* and HARDLY *adv.*

On the other hand, Layamon's *scade* in sense 1 almost certainly had (f), and represents the OE. *scæda* (the mod. form of which would have been **schathe*). The ME. spelling with *sch* is of doubtful phonetic interpretation: in most of the verse examples the word thus written alliterates with *sk*, and most therefore be regarded as of Scandinavian etymology; but some of the other instances may possibly

(though there is no definite evidence) represent the native word.

The Teut. root **skap* is believed to represent an Indo-germanic **skath*: *sketh*; cf. Gr. *ἀσκηθής* unsathed.]
